Superior Contamination Protection in Wet or Dry Applications

ISA Corporation's **FLATFOOT**® shoe covers are designed specifically for use in clean-ups, general industrial and maintenance applications, painting, food processing plant operations, agricultural applications, and recreational activities.

ISA's shoe covers provide a superior barrier to protect both workers and environment.

ISA's shoe covers are made from 100% natural rubber and surpass the physical requirements for industrial use.

As a result of their superior resistance to abrasion, chemical attack, cuts, punctures and snags, ISA shoe covers protect better and last longer.

ISA's shoe covers have an acid embossed tread which offers excellent slip resistance for both wet and dry applications.

ISA's **FLATFOOT**® shoe covers offers a high end solution for contamination protection, safety and reliability at a low cost.

FLATFOOT® shoe covers comply with the CFR - Code of Federal Regulations Title 21 Part §170.3 and §177.2600
